### **DETAILED ACTION**

1. According to a preliminary amendment filed on Feb. 17, 2004, the applicants have canceled claims 1-17 and furthermore, have added new claims 18-30.
2. Claims 18-30 are now pending in the application.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 18-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification on page 2 discloses compounds of formula 3 and furthermore, teaches a process for preparing compounds of formula 3 ( see page 5, last two paragraphs as well as example on page 8 ). However, in compound 3, variable R is only H. There is no teaching in the specification for this variable R to be C1-C8 alkyl group or a C2-C6-alkenyl group. Therefore, the values of variable R other than H constitute new matter in the instant claims 18-30.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1625

6. Claims 18-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In independent claims 18 and 25, it is not clear whether Boron is attached directly to alkenyl (CH=CH) group or indirectly through alkyl chain of (CH<sub>2</sub>)<sub>5</sub> carbon atoms.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is (571)272-0678. The examiner can normally be reached on Monday through Friday, 8:30 A.M. to 5:00 P.M..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cecilia Tsang can be reached on (571)272-0562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
